

ELECTRO / MECHANICAL FITTER JOB VACANCY

Bowers Electricals Ltd is an expanding power engineering company, supplying new and refurbished Power and Distribution transformers, HV & LV switchgear, Motors, HV & LV installation and turnkey packages.

Since its beginnings four generations ago as an electric motor and transformer rewinding business, the company is now also a leading producer of Power and Distribution Transformers, HV and LV switchgear and all manner of associated products and services.

Bowers Electricals boasts a prestigious list of clients from across the public and private sectors. The team has worked on projects everywhere from small industrial developments to major infrastructure schemes including large-scale power stations, government buildings, hospitals, schools and universities, wind and solar farms and throughout the heavy power engineering industry.

Bowers prides itself on being able to offer total engineering solutions and over the years the team has built an enviable international reputation for quality, customer service and speed of delivery and it doesn't stop at manufacturing, Bowers offers a full turnkey operation that includes the overhaul, rewind and repair of customers property, installation, on-going service maintenance and expert project management of all developments regardless of size. All of which is conducted from its headquarters in Heanor, Derbyshire.

Due to continued expansion we are looking for self-motivated, experienced candidates for the following position:

Electro / Mechanical Transformer Fitter

The role will involve:

- Assembling distribution transformers and associated items (LV/HV switch etc),
- Carrying out service/remedial work and then preparing units for final testing, painting and preparing for delivery.
- Manually moving and handling items which may be heavy / difficult to hold.
- Working to the required EHS requirements and Quality standards
- Identifying and implementing improvements.

Applicants must be able to demonstrate:

- Experience working in a multi- disciplinary role that has mechanical and electrical elements is essential.
- Working on HV, LV, transformers, switchgear and associated equipment
- Ability to work as part of a small busy team
- Self motivated, conscientious, enthusiastic and adaptable approach
- Reliable with good timekeeping
- Dexterous, physically fit and able to lift
- Able to work on own initiative and under pressure

Preferably they will also be able to show:

- HNC / ONC, C&G, Apprenticeship or equivalent in an Engineering discipline
- GCSE (or equivalent) passes in Maths and English Language
- Knowledge of Distribution Transformers & Switchgear
- Electrical Installation certification
- Safety Qualifications or Training

Hours of work are 37.5 hours Mon- Fri 08.00-16.30, with occasional enhanced rate overtime or weekend work during as the workload requires. Salaries commensurate with experience but certainly competitive and other benefits include; Company pension scheme, 23 days annual leave (plus bank holidays) which rises with service.

Please submit CV with details of experience and salary expectations to: jobs@bourselec.co.uk

As Bowers Electricals has agreements in place no speculative agency submissions will be taken at this time.

At Bowers Electricals we aim to be accessible, diverse and inclusive. We welcome applicants from all backgrounds.

Any applicants must already have the legal right to work in the UK and we may ask for evidence of this prior to making any offer of employment.
