

Project / Contract Engineer

Bowers Electricals Ltd is an expanding power engineering company, supplying new and refurbished Power, Distribution and Cast Resin transformers, HV & LV switchgear and installation, Motors, and full turnkey packages.

Bowers Electricals boasts a prestigious list of clients from across the public and private sectors. The team have worked on projects everywhere from small industrial developments to major infrastructure schemes. Which includes large-scale power stations, government buildings, hospitals, schools and universities, wind and solar farms and throughout the heavy power engineering industry.

We pride ourselves on being able to offer total engineering solutions and over the years the team has built an enviable international reputation for quality, customer service and speed of delivery. Bowers offers a full turnkey operation that includes the overhaul, rewind and repair of customers property, installation, on-going service maintenance and expert project management of all developments regardless of size. All of which is conducted from its head-quarters in Heanor, Derbyshire.

We are looking for self-motivated, experienced candidates for the following position:

Project / Contracts Engineer

We are looking for an engineer to work in conjunction with our sales, projects and operations departments. The role will involve:

- Scheduling, co-ordinating and monitoring the assigned electrical engineering projects from sales to completion.
- Establishing new, and maintaining existing, relationships with customers to ensure repeat business
- Managing and interpreting customer requirements. Liaising with customers to develop and deliver proposals of turnkey projects but also servicing and repairs.
- Being the voice of the customer internally within the business.
- Create the framework used to develop and monitor project metrics and manage the collection of project data.
- Following up any work conducted to ensure the highest levels of customer satisfaction.
- Perform overall quality control of the work (budget, schedule, plans, performance) and report regularly on project status.
- Deliver to cost, specification and time for a defined package of work.
- Provide Financial analysis, control, & Forecasting.
- Complete Risk Management assessments.
- Ensure Compliance with applicable National & International standards such as ISO & BS EN.
- Ensure project controls and processes are effectively deployed and maintained for all work through the lifecycle of the delivery

Project / Contract Engineer

Applicants must be able to demonstrate:

- A minimum of HNC/HND or equivalent qualification in an electrical engineering discipline.
- Experience of working with HV & LV electrical installations.
- An enthusiastic approach with exceptional written and verbal communication skills.
- Previous experience of project or contract management
- Ability to work with minimum supervision in order to deliver results and to work in ambiguous situations, whilst working to tight timescales and achieving quality outputs on time.
- Have a proven track record in project delivery and the ability to operate in a complex environment

Candidates will preferably be able to show:

- CAD
- A good understanding of contract forms including the main JCT and NEC Forms of contract
- Advanced MS Office skills
- Ability to work with multiple discipline projects

The role may require some travel within the UK, so a full driving license is essential and will be predominantly based from our Heanor offices with the option to do some working from home.

Salary will be commensurate with experience but certainly competitive and other benefits include; Company pension scheme, 23 days annual leave, (plus bank holidays) which rises with service, modern air conditioned offices with free tea/coffee.

Please submit CV with details of experience and salary expectations to:

jobs@bowerselec.co.uk

As Bowers Electricals has an agreement in place no speculative agency submissions will be taken at this time.

At Bowers Electricals we aim to be accessible, diverse, and inclusive. We welcome applicants from all backgrounds. Any applicants must already have the legal right to work in the UK and we may ask for evidence of this prior to making any offer of employment.
